WAMECH P.A. Wąsik Sp. J.
ul. Towarowa 3
30-435 Kraków

LETTER OF REFERENCE

In year 2013 we started cooperation with Wamech company which has designed and is continuously delivering to our plant transport platforms with specially modified V-Liner intralogistics system.

After two years of cooperation, we can conclude that the Wamech company can be characterized with high quality products, professional service and reliability in execution of orders. In addition, products which have been made upon the special request have met all of our expectations and requirements.

Wamech products do not generate high exploitation costs due to lack of needed services and repairs. Also we find them being very safe and ergonomical for our employees using them on daily basis. Safety and ergonomics delivered devices also stands for the highest quality level.

We recommend Wamech as a reliable supplier of dedicated intralogistics solutions.

Regards,
Maciej Kaczmarek
